FibRoc[®]

Plasterboard

High Performance Protective Nonwovens
for Durable Applications

Introducing FibRoc® Plasterboard.

Delivering security of supply, we are a global leader in sustainable and innovative fiber-based solutions.

Manufacturing a wide range of quality nonwovens for the plasterboard market.

We manufacture nonwovens produced from glass, synthetic and natural fibers, from manufacturing platforms located in Finland, France, Sweden, Belgium and USA.

Manufacturing platforms for the FibRoc® portfolio are fully certified for quality (ISO9001), safety (OHSAS 18001), and environmental (ISO14001) standards.

COMPREHENSIVE PORTFOLIO

FibRoc® Plasterboard offers a wide range of solutions for different applications:

INTERIOR: FIRE RESISTANCE

APPLICATION AREAS:

Garage / Elevator Shafts / Metal Stud Partitions

INTERIOR: MOISTURE RESISTANCE

APPLICATION AREAS:

Wet Rooms / Bathroom / Kitchen / Swimming Pool / Sauna / Humid Room

SEMI-EXTERIOR: FIRE & MOISTURE RESISTANCE

APPLICATION AREAS:

Porch / Balcony / Soffit

EXTERIOR: FIRE & MOISTURE RESISTANCE

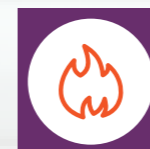

APPLICATION AREAS:

Exterior Sheathing / Soffit / Direct Render / ETICS / High Weather Resistant Applications (for example Rigid Air Barrier Systems)

The benefits of FibRoc® Plasterboard.

Performance - most effective solutions available in the market, utilising glass, synthetic and natural fibers, delivering excellent dimensional stability, good protection, durability and reduced environmental impact in all high performance application areas

Fire resistance - meets compliance with all necessary safety standards, delivering protection against flame spread

Moisture resistance - protection against moisture delivering high mechanical performance with no mold growth present in wet and humid environments

Versatility - flexible product development and customized solutions tailor-made to fit your needs

Sustainable - portfolio contains solutions which are fluorocarbon and formaldehyde free

Security of supply - several qualified manufacturing platforms

Ahlstrom has an extensive technological platform, as well as the ability and flexibility to make a wide range of fiber-based solutions for multiple applications.

We'd like to further understand your unmet needs and develop an effective solution together.
